

Hub Card

Product Description

Hub card based on the OSP platform, it can realize the convergence of six Ethernet ports.

Product Features

- Board design, plug and play
- Low power consumption
- Network management can be identified

Product Specification

Parameter	Index
Transmission rate	10Mbps/100Mbps
Network standard	IEEE 802.3、IEEE 802.3u、IEEE 802.3x
Number of ports	6
Interface media	10Base-T: Class 3 or more UTP, 100Base-TX: Category 5 UTP
Transmission mode	Full duplex / half duplex adaptive
Exchange method	Storage - forwarding
Backplane bandwidth	1Gbps
Packet forwarding rate	10Mbps:14880pps;100Mbps:148800pps
MAC address table	2K
Slot width	1 standard slot
Maximum power consumption	5W
