

**1X2 Splitter Frame**

Product Description

The 1U rackmount of 1X2 optical splitter is a passive optical device that integrates several 1X2 optical splitters into a 1U height standard 19-inch rack. And customer can define the output interface of corresponding flange adapter. If selecting the optional LC flange, a single device can accommodate up to 12 optical splitters, if selecting the SC or FC flange, a single device can accommodate up to 10 Optical splitters.

Product Features

- Pure passive device
- Enhanced security
- Support various rates
- Independent intellectual property rights
- Plug and play, high integration, multi-channel support
- Different spectral ratios (non-uniform or evenly divided) can be designed

Product Specification

Parameter	Index	
	Single mode	Multimode
Operation wavelength	1310±40&1550±40nm	850nm
Splitting ratio	1:99~50:50	
Return loss	50dB	36dB
Directionality	55dB	

Note: 1X2 splitter general indicator
